Craft - Apply for entry in the register of craftsmen

Only natural and legal persons and partnerships entered in the register of craftsmen are permitted to operate a craft requiring a licence as a standing trade. A business enterprise is considered to be a craft that requires a licence if it is operated as a craft and if it fully encompasses a trade listed in Annex A of the Crafts Code (see legal basis) or if it carries out activities that are essential to that trade.

Prerequisites

- **Master Craftsman's Certificate**

You will be entered in the Register of Craftsmen of the Chamber of Crafts if you or your business manager has successfully passed the master craftsman examination in a craft requiring approval:

- which corresponds to the craft to be practised, or
- in a trade which is related to this professional and technical trade and which requires approval.

Note: If these requirements are not satisfied, exceptions can be requested in certain cases.

- **Exceptions**

The Handicrafts Code contains provisions according to which the notifying party or the management also:

- a.) as a graduate of universities and technical colleges (z. B. as a graduate engineer) with a German state or state-recognised examination equivalent to the master craftsman's examination (§ 7 sec. 2 HwO) can be entered in the register of craftsmen. The prerequisite is that the study or school focus of your examination corresponds to the craft to be registered.
- b.) with the right to exercise according to § 7a HwO: This is granted to anyone who can prove the knowledge and skills required for another craft subject to licensing in Annex A of the HwO or for essential activities of this craft.
- c.) with the right to exercise according to § 7b HwO: Experienced journeymen and women can become self-employed, provided they can show at least six years of practical work in the trade and at least four years of this in a leading position.
- d.) with exceptional permission §§ 8, 9 sec. 1 No. 1 HwO: In exceptional cases, an exceptional permission is to be granted if the knowledge and skills necessary for the independent exercise of the craft requiring permission are proven. An exceptional case exists, for example, if taking a master craftsman's examination at the time of application or afterwards would mean an unreasonable burden.
- e.) for foreign applicants: When you take up a self-employed craft

requiring authorisation from a branch in Berlin, you must be entered in the register of craftsmen. The terms and conditions of the Crafts Code shall also apply here. This applies to foreign companies from countries outside the European Economic Area, even in the case of short-term manual work (assembly work, work contract services). If you do not have a master craftsman's title or proof of an equivalent German examination or if you are not already registered in the register of craftsmen with another craft, there is the possibility, under certain conditions, of applying for an exemption permit in accordance with §§ 8 or 9 sec. 1 no. 1 HwO.
