Prostitutionsfahrzeug - Aufstellung melden

Prostitution vehicles are motor vehicles, vehicle trailers and other mobile facilities that are made available for the provision of sexual services.

Anyone wishing to set up a prostitution vehicle for operation on more than two consecutive days or several times in one month must notify the local public order office two weeks before setting it up. The operating location and operating hours must not conflict with the requirements for the protection of the prostitutes working in the prostitution vehicle, customers, young people, residents, neighbors or the general public. Otherwise, the installation of the prostitution vehicle may be prohibited.

A report that is not made, not made correctly, not made in full or not made on time is an administrative offense and can be punished with a fine of up to EUR 1,000.00.

Procedure

1. If you wish to set up a prostitution vehicle, you must notify the authorities before setting it up. The notification can be submitted online. Please complete the notification in full, upload the required documents and submit them.
2. The responsible office will check your details and documents and request any missing evidence. You will receive instructions on the further procedure and will be informed of the processing status by e-mail.
3. If all requirements are met and the necessary documents have been submitted, you will receive a fee notice and confirmation by post. If you do not meet all the requirements or have the necessary documents, your application will be rejected and a fee will be charged. In this case, you can read the reason for the rejection in the notification from the responsible office, which will check your details and documents and request any missing evidence. You will receive instructions on the further procedure and will be informed of the processing status by e-mail.
