Apply for recognition of foreign professional qualifications (third country) as a specialist

The profession of specialist is regulated in Germany. This means: You need a permit if you want to use the designation "Fachärztin" or "Facharzt" for your specialization in Berlin.

With the education as a specialist you have acquired a medical specialization to your qualification as a doctor abroad. To work as a doctor in Germany, you first need your license to practice medicine or a professional license. In order to be able to work as a specialist in Germany, you must also apply for recognition of your specialist training. This allows you to use the designation "Fachärztin" or "Facharzt" in your respective specialization.

Note: You may only use the designation for your specialization if there is a corresponding continuing education designation also in Germany. The permission will be granted by the responsible medical association in Berlin after examination of your documents and requirements.

Procedure flow:

1. You submit your application and the required documents to the Berlin Medical Association. If necessary, you will be asked to submit missing documents.

2. The competent authority will check whether your professional qualification is equivalent. The professional qualification is equivalent if there are no significant differences between your foreign professional qualification and the German professional qualification.

3.1 If your specialist qualification is recognised, you can work in the profession in Germany. You will receive a notification.

3.2 If significant differences are found, you will not be certified as having equivalent specialist qualifications: you will receive a justification. You can take an exam to prove the missing knowledge. *If you pass the exam, you will receive recognition. You may then use the title "Fachärztin" or "Facharzt" for your specialization.

4 You can take legal action against the decision of the competent body within a certain period of time (for example, file an objection). The decision will then be reviewed. Details on this can be found in the appeal instructions at the end of your decision. We recommend that you first talk to the responsible office before taking legal action against the decision.

Prerequisites

- **License to practice medicine/ approbation**
(<https://service.berlin.de/dienstleistung/325389/>)

You must already have a state license to practice medicine (approbation) valid in Germany or a license to practice medicine/ doctor or a professional permit.

- **Equivalence of your professional qualification**

(<https://service.berlin.de/dienstleistung/325401/en/>)

You must prove the equivalence of your professional qualification as a specialist.

Documents required

- **Application for recognition**

You submit the application online or in writing using the form by post.

- **Curriculum vitae**
