Apply for recognition of foreign professional qualifications as a disinfector

Disinfectors disinfect rooms, objects and surfaces to prevent the settlement or spread of pathogens.

The profession of disinfector is regulated in Germany. This means that in order to work as a disinfector in Germany, you need a state permit. With this permit, you may use the professional title of disinfector and work in the profession.

To obtain the permit, you must have your foreign professional qualification recognised.

In the recognition procedure, the competent body compares your professional qualification from abroad with the German professional qualification and checks the equivalence. The equivalence of the professional qualification is an important prerequisite for the granting of the state licence. In addition to the equivalence of the professional qualification, you must also fulfil other requirements for the granting of the permit. Further requirements are, for example, sufficient German language skills and health suitability.

You can also apply for the procedure from abroad.

Procedure

1. Application

They shall submit an application to the competent body for the granting of permission to use the professional title of disinfector.

2. Equivalence check

The competent body will then check whether you meet all the requirements. One important requirement is the equivalence of your professional qualification. The competent body compares your professional qualification from abroad with your German professional qualification as a disinfector. The professional qualification is equivalent if there are no significant differences between your foreign professional qualification and the German professional qualification.

3. Possible results of the examination

If your professional qualification is equivalent, your foreign professional qualification will be recognised. The competent body can confirm the result to you in writing. You still have to fulfil the other requirements. Then you will receive permission to use the professional title of disinfector.

- Are there significant differences between your professional qualification and the German professional qualification? Perhaps you can compensate for the differences through your professional practice, other knowledge or skills (lifelong learning). You must provide evidence of professional practice. Knowledge and skills must be certified by an authority of the state in which you acquired the knowledge or skills.
- However, it may be that the essential differences cannot be compensated by this knowledge. Then your foreign professional qualification will not be

recognised. You will then not be allowed to work as a disinfectant in Germany.

- However, the competent body will tell you the essential differences and why you cannot compensate for the essential differences through your professional practice. In most cases, you can take a compensatory measure. This allows you to compensate for the substantial differences.

4. Compensatory measures

There are various compensatory measures:

- Adaptation course
- aptitude test.

You can choose between an adaptation course or an aptitude test.

If you successfully complete the compensatory measure and fulfil all other requirements, you will receive permission to hold the professional title of disinfectant.
