Apply for recognition of foreign professional qualifications (third country) as masseur and medical bath attendant

Masseuses and medical bath attendants apply various physical therapy procedures to their patients and clients.

The profession of masseur and medical bath attendant is regulated in Germany. This means that you need a state permit to work as a masseuse and medical bath attendant in Germany. This permit allows you to use the professional title of masseuse and medical bath attendant and to work in the profession.

If you have a professional qualification from a so-called third country, you can also obtain a state permit from the competent authority in Germany. Third countries are all countries that do not belong to the European Union (EU), the European Economic Area (EEA) or Switzerland.

To obtain the permit, you must have your foreign professional qualification recognised.

In the recognition procedure, the competent body compares your professional qualification from abroad with the German professional qualification and checks the equivalence. The equivalence of the professional qualification is an important prerequisite for the granting of the state licence. In addition to the equivalence of the professional qualification, you must also fulfil other requirements for the granting of the permit. Further requirements are, for example, sufficient German language skills and health suitability.

If your professional qualification comes from the EU, the EEA or Switzerland, other regulations apply.

You can also apply for the procedure from abroad.

Procedure

1. Application

You submit an application for the granting of permission to use the professional title of masseuse and medical bath attendant to the competent body.

2. Equivalence check

The competent body will then check whether you meet all the requirements. One important requirement is the equivalence of your professional qualification. The competent body compares your professional qualification from abroad with the German professional qualification as a masseur and medical bath attendant. The professional qualification is equivalent if there are no significant differences between your foreign professional qualification and the German professional qualification.

3. Possible results of the examination

If your professional qualification is equivalent, your foreign professional

qualification will be recognised. The competent body can confirm the result to you in writing. You still have to fulfil the other requirements. You will then be granted permission to use the professional title of masseur and medical bath attendant.

- Are there any significant differences between your professional qualification and the German professional qualification? Perhaps you can compensate for the differences through your professional practice, other knowledge or skills (lifelong learning). You have to prove your professional practice. Knowledge and skills must be certified by an authority of the state in which you acquired the knowledge or skills.
- However, it may be that the essential differences cannot be compensated by this knowledge. In that case, your foreign professional qualification will not be recognised. You will then not be allowed to work as a masseuse and medical bath attendant in Germany.
- However, the competent authority will tell you the essential differences and why you cannot compensate for the essential differences through your professional practice. In most cases, you can take a compensatory measure. This will allow you to compensate for the essential differences.

4. Compensatory measures

There are various compensatory measures:

- **Adaptation course:** The adaptation course lasts a maximum of three years.
- **Knowledge examination:** The knowledge examination tests your knowledge in certain subjects and areas. The knowledge examination comprises an oral and a practical part. The practical part of the examination is combined with an interview.

You can choose between an adaptation course or a knowledge examination.

If you successfully complete the compensatory measure and meet all other requirements, you will receive permission to use the professional title of masseur and medical bath attendant.

Prerequisites

- **Training in the health profession completed in a third country that is equivalent to German training or an equivalent level of knowledge.**
The equivalence of the level of knowledge is to be proven, if necessary, by an examination or an adaptation course.
