Applying for recognition of foreign professional qualifications (EU/EEA/Switzerland) as a podiatrist

Podiatrists carry out medical foot care measures.

The profession of podiatrist is regulated in Germany. This means: In order to work as a podiatrist in Germany, you need a state permit. With this permit, you may use the professional title of podiatrist and work in the profession.

Even with a professional qualification from the European Union (EU), the European Economic Area (EEA) or Switzerland, you can obtain a state permit from the competent authority in Germany. To obtain the permit, you must have your foreign professional qualification recognised.

In the recognition procedure, the competent body compares your professional qualification from abroad with the German professional qualification and checks the equivalence. The equivalence of the professional qualification is an important prerequisite for the granting of the state licence.

In addition to the equivalence of the professional qualification, you must also fulfil other requirements for the granting of the permit. Further requirements are, for example, sufficient German language skills and health suitability.

If your professional qualification does not come from the EU, the EEA or Switzerland, other regulations apply.

You can also apply for the procedure from abroad.

Procedure

1. Application

You submit an application for the granting of permission to use the professional title of podiatrist to the competent body.

2. Equivalence check

The competent body will then check whether you meet all the requirements. One important requirement is the equivalence of your professional qualification. The competent body compares your professional qualification from abroad with the German professional qualification as a podiatrist. The professional qualification is equivalent if there are no significant differences between your foreign professional qualification and the German professional qualification.

3. Possible results of the examination

If your professional qualification is equivalent, your foreign professional qualification will be recognised. The competent body can confirm the result to you in writing. You still have to fulfil the other requirements. You will then be granted permission to use the professional title of podiatrist.

- Are there significant differences between your professional qualification and the German professional qualification? Perhaps you can compensate for the

differences through your professional practice, other knowledge or skills (lifelong learning). You must provide evidence of professional practice. Knowledge and skills must be certified by an authority of the state in which you acquired the knowledge or skills.

- However, it may be that the essential differences cannot be compensated by this knowledge. In this case, your foreign professional qualification will not be recognised. You will then not be allowed to work as a podiatrist in Germany.
- However, the competent body will tell you the essential differences and why you cannot compensate for the essential differences through your professional practice. In most cases, you can take a compensatory measure. This will enable you to compensate for the substantial differences.

4. Compensatory measures

There are various compensatory measures:

- **Adaptation course:** The adaptation course lasts a maximum of three years.
- **Aptitude test:** In the aptitude test, only those areas in which significant differences have been identified are tested. The aptitude test consists of a practical test combined with an examination interview.

You can choose between an adaptation course or an aptitude test.

If you successfully complete the compensatory measure and meet all other requirements, you will receive permission to use the professional title of podiatrist.

Prerequisites

- **Training completed in the EU/EEA/Switzerland in the health profession that is equivalent to German training or an equivalent level of knowledge**

The equivalence of the level of knowledge is to be proven, if necessary, by an examination or an adaptation course.

- **Health suitability**
- **Proof of reliability and worthiness for the practice of the health profession**
- **Sufficient knowledge of German level B 2**
- **Proof of responsibility**
