Apply for recognition of foreign professional qualifications as a health inspector/hygiene inspector

Health supervisors, hygiene inspectors perform inspection and advisory tasks in the health administration, e.g. in the areas of infection control, disease prevention, environmental hygiene and traffic hygiene, hygiene in hospitals and other community facilities.

The profession of health inspector or hygiene controller is regulated in Germany. This means that in order to work as a health supervisor or hygiene inspector in Germany, you need a state permit. This permit allows you to use the professional title of health inspector or hygiene inspector and to work in the profession.

To obtain the permit, you must have your foreign professional qualification recognised.

In the recognition procedure, the competent body compares your professional qualification from abroad with the German professional qualification and checks the equivalence. The equivalence of the professional qualification is an important prerequisite for the granting of the state licence. In addition to the equivalence of the professional qualification, you must also fulfil other requirements for the granting of the permit. Further requirements are, for example, sufficient German language skills and health suitability.

You can also apply for the procedure from abroad.

Procedure

1. Application

You apply to the competent authority for permission to use the professional title health inspector or hygiene inspector.

2. Equivalence check

The competent body will then check whether you meet all the requirements. One important requirement is the equivalence of your professional qualification. The competent body compares your professional qualification from abroad with your German professional qualification as a health inspector or hygiene inspector. The professional qualification is equivalent if there are no significant differences between your foreign professional qualification and the German professional qualification.

3. Possible results of the examination

If your professional qualification is equivalent, your foreign professional qualification will be recognised. The competent body can confirm the result to you in writing. You still have to meet the other requirements. You will then be granted permission to use the professional title of health inspector or hygiene inspector.

- Are there any significant differences between your professional qualification and the German professional qualification? Perhaps you can compensate for the differences through your professional practice, other knowledge or skills

(lifelong learning). You have to prove your professional practice. Knowledge and skills must be certified by an authority of the state in which you acquired the knowledge or skills.

- However, it may be that the essential differences cannot be compensated by this knowledge. In this case, your foreign professional qualification will not be recognised. You will then not be allowed to work as a health inspector or hygiene inspector in Germany.
- However, the competent authority will tell you the essential differences and why you cannot compensate for the essential differences through your professional practice. In most cases, you can take a compensatory measure. This allows you to compensate for the essential differences.

4. Compensatory measures

There are various compensatory measures:

- Adaptation course
- Aptitude test

You can choose between an adaptation course or an aptitude test.

If you successfully complete the compensatory measure and meet all other requirements, you will receive permission to use the professional title of health inspector or hygiene inspector.

Prerequisites

- **Training completed abroad that is equivalent to German training or an equivalent level of knowledge**
The equivalence of the level of knowledge is to be proven, if necessary, by an examination or an adaptation course.
- **Health suitability**
- **Proof of reliability and worthiness for the practice of the health profession**
- **Sufficient knowledge of German level B 2**
- **Proof of responsibility**

Documents required
